Summary

I'm looking forward to learning the fundamentals of chemical engineering and discovering everything that the subject has to offer as a second-year student at the National Institute of Hamirpur. Along with my academics, I've developed a passion for coding and have started studying application development in my own time. I have a strong desire to use my expertise in chemical engineering and programming to solve problems in the real world and have a good impact. As a student and developer, I am constantly searching for fresh challenges and chances to progress, and I am forward to see what the future offers.

Experience

Executive Member

DSC NIT Hamirpur

Aug 2023 - Present (3 months)

Executive Member

CSEC NITH

Feb 2023 - Present (9 months)

Education

National Institute of Technology Hamirpur-Alumni

Bachelor of Technology - BTech, Chemical Engineering

Nov 2022 - Nov 2026

Skills

Web Applications • Dart • Flutter • Java • Chess
